Automatically win $50 in equipment and supplies for each school blood drive that achieves 20 donors!

- For every 20 people who attempt to donate blood at your blood drive, $50 will be awarded to your school in equipment and supplies.
- A Registered Donor is anyone who is 16 years of age or older, has not donated blood in the last 56 days and attempts to donate on behalf of your school during your blood drive.
- Anyone that has been permanently deferred by Shepeard prior to the blood drive is not eligible to donate and will not be counted in the presenting numbers.
- Parents, faculty, administration, and community members may boost your schools numbers and help your school win!
- Due to FDA regulations, Shepeard is unable to award prizes in the form of cash, check or gift cards. Funds will be paid directly to third party vendors on behalf of the school.
- Not following the rules of this contest may result in disqualification from participating in this year’s Junior Heroes Program.

All money earned has to be spent by the second Friday in December. Earnings will be forfeited if this deadline is not strictly adhered to. There will be no earning rollovers allowed. All schools will start the next school year with a zero balance.

For more information call 706.737.4551 or log on to shepeardblood.org

No date restrictions!
Hold a drive anytime during the calendar year!

No drive restrictions!
Hold as many drives as you like, Summer included!
Help your school and help save local lives!

Through the Junior Heroes Program, elementary and middle school students can learn about the importance of blood donation, what a blood center’s role is in their community, and how blood is used to heal. While too young to donate blood, these students can share the information they learn and encourage those who are eligible to participate in blood drives held at their school.

RESOURCES

- Shepheard will provide you with blood drive posters, letters to parents and everything you need to successfully communicate this great opportunity.
- Customized presentation for students, parents or staff that are designed to inform and inspire audience members about blood donation.
- Schedule a tour of our collection and testing facility at our Augusta Center.
